

20 % Silicone Defoamer F/G

Characteristics	Specification
Appearance	Opaque White Fluid
Odor	Mild Surfactant
Specific Gravity	1.0 (8.33 lbs/gal)
pH	6.0 – 7.0
Viscosity	1000 – 2000 CPS
Solubility in Water	Dispersible

Description

A concentrated 20% silicone emulsion defoamer with superior foam knockdown and suppression capabilities. This product may also be diluted with water and emulsifiers to produce highly effective, less concentrated antifoams.

Packaging

460 lb Poly Drum
