

## STPP F/G Granular

Characteristics	Specifications
Physical Property	White Granular
Na <sub>5</sub> P <sub>3</sub> O <sub>10</sub>	93% +/- 2%
Na <sub>4</sub> P <sub>2</sub> O <sub>7</sub>	Approx. 4 %
Na <sub>2</sub> HPO <sub>4</sub>	Approx. 0.1%
pH in 1% water solution	Approx. 9.5%
Water Insolubles	Less than 0.1%
Fe	Less than 30 PPM
As	Less than 3 PPM
Pb	Less than 5 PPM
Heavy Metals (as Pb)	Less than 10 PPM

### Applications

Used in curing pickles to stabilize the loss of natural fluids in cured **meat products**.

Used to stabilize the loss of natural fluids during cooking, thawing, and reheating of cooked **poultry products**.

### Packaging

50.00 lb Multiwall paper bags
