

## Sodium Hypochlorite 15%

(Commercial Grade)

Characteristics	Specification
Available Chlorine (Cl <sub>2</sub> )	150 Min. grams/litre
Sodium Carbonate (Na <sub>2</sub> CO <sub>3</sub> )	1.0 Max. grams/litre
Sodium Hydroxide (NaOH)	.5 – 10 grams/litre
Heavy Metals	<1 PPM by Wt.
Temperature	<90° Fahrenheit
Specific Gravity	1.190 – 1.210
Clarity	Free of particulate matter above 1 micron in size

Sodium Hypochlorite is used to bleach paper pulp, textiles, etc.; intermediate; organic chemicals; water purification; fungicides; swimming pool disinfectant; laundering; germicide.

Packaging: 5 gallon pail, 15 gallon carboy, 55 gallon drum, 220 gallon tote, 330 gallon tote
